

## **Breaking News!!**

### **Classic Aviation receives repair station certificate for performing pitot-static and transponder certifications.**

**Classic Aviation is now authorized to perform both IFR and VFR static system and transponder checks required by FAR 91.411 and 91.413**

**November 12, 2009 Doug Cash receives Classic Aviation's repair station certificate from FAA representative Rob Watkins.**

Congratulations to Doug Cash who singlehandedly made the repair station happen after months of hard work and training! This accomplishment brings the first-ever repair station certificate to the Pella Municipal Airport.

**This is one more service that Classic Aviation is proud to offer our customers. Please consider Classic Aviation for your next FAR 91.411/413 check!**
